Construction Corporation No 1 Joint Stock Company ("the Company") is a joint stock company established in SR Vietnam pursuant to investment certificate No. 0301429113 was initially issued by the Department of Planning and Investment of Ho Chi Minh City on 29 July 2010 with the latest 17th amendment dated 17 July 2025.

The Company's shares are listed on the UPCoM Stock Exchange of Hanoi Stock Exchange ("HNX") with the stock trading code CC1. Details of the percentage of contributed capital of shareholders are presented in Note 22.

Normal business cycle of the Company and subsidiaries ("the Group") is from the point of time when the Group purchase material for construction procedures to the point of time when construction works are accomplished.

The Group's business activities are construction and real estate business.

The Group's principal activities are:

- Construction, building and installing machinery and equipment for civil and industrial works, industry, traffic, irrigation, hydropower, postal, foundations, urban and industrial infrastructure engineering works, power line projects, power transformer stations;
- Construction consulting, construction investment, electricity business;
- Premise and office leasing services;
- Producing and trading supplies, construction technology, construction materials;
- Designing and manufacturing precast concrete products;
- Designing and building civil and industrial constructions, infrastructure; and
- Real estate business.

The Group has registered office at 111A Pasteur Street, Sai Gon Ward, Ho Chi Minh City. As at 31 Dec 2025, the Group had 9 branches (as at 31 December 2024: 8 branches) as below:

- Branch of Construction Corporation No 1 Joint Stock Company - Central: No. 116 Ho Tung Mau, Hoa Khanh Ward, Da Nang City;
- Branch of Construction Corporation No 1 Joint Stock Company: No. 45, Alley 61, Lane 17, Phung Chi Kien Street, Cau Giay Ward, Hanoi City;
- Branch of Construction Corporation No 1 Joint Stock Company - Cambodia: Lot 185 Room 1508, 15th Floor, St.329 Ph.3 Sk.Boeng Kak 2 Kh.Tuol Kouk, Phnom Penh, Cambodia;
- Branch of Construction Corporation No 1 Joint Stock Company - Dong Thap: No. 79 Le Thi Rieng, Cao Lanh Ward, Dong Thap Province;
- Branch of Construction Corporation No 1 Joint Stock Company - Phu Yen: No.99 Le Thanh Phuong, Tuy Hoa Ward, Dak Lak Province;
- Branch of Construction Corporation No 1 Joint Stock Company - Soc Trang: Plot no. 93, Map sheet no. 76, Provincial Road 8, Hoi Trung Hamlet, Lich Hoi Thuong Commune, Can Tho Province;
- Branch of Construction Corporation No 1 Joint Stock Company – Dak Lak: Plot no. 198, Map sheet no. 14, Village 16, Ea Knuec Commune, Dak Lak Province;
- Branch of Construction Corporation No 1 Joint Stock Company – Dong Nai: No. 1179 National Highway 51, Xom Goc Hamlet, Long Thanh Commune, Dong Nai Province;
- Branch of Construction Corporation No 1 Joint Stock Company – Dak Nong: Hung Vuong Street, Residential Group 5, Dong Gia Nghia Ward, Lam Dong Province.

As at 31 Dec 2025, the Group had 1,163 employees (as at 31 December 2024: 1,135 employees).

**2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

**2.1 Basis of preparation of consolidated financial statements**

The consolidated financial statements have been prepared in accordance with Vietnamese Accounting Standards, the Vietnamese Corporate Accounting System and applicable regulations on preparation and presentation of consolidated financial statements. The consolidated financial statements have been prepared under the historical cost convention except for investments in associates, and business combinations.

The accompanying consolidated financial statements are not intended to present the financial position and results of its operations and its cash flows in accordance with accounting principles and practices generally accepted in countries and jurisdictions other than Vietnam. The accounting principles and practices utilised in Vietnam may differ from those generally accepted in countries and jurisdictions other than Vietnam.

The consolidated financial statements in Vietnamese language are the official statutory consolidated financial statements of the Group. The consolidated financial statements in English language have been translated from the Vietnamese version.

**2.2 Fiscal year**

The Group's fiscal year is from 1 January to 31 December.

**2.3 Currency**

The consolidated financial statements are measured and presented in Vietnamese Dong ("VND" or "Dong"), which is the Group's accounting currency.

**2.4 Exchange rates**

Transactions arising in foreign currencies are translated at exchange rates prevailing at the transaction dates. Foreign exchange differences arising from these transactions are recognised in the consolidated income statement.

Monetary assets and liabilities denominated in foreign currencies at the consolidated balance sheet date are respectively translated at the buying and selling exchange rates at the consolidated balance sheet date of the commercial bank(s) with which the Group regularly transacts. Foreign currencies deposited in banks at the consolidated balance sheet date are translated at the buying exchange rate of the commercial bank where the Group opens its foreign currency accounts. Foreign exchange differences arising from these translations are recognised in the consolidated income statement.

**2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)**

**2.5 Basis of consolidation**

***Subsidiaries***

Subsidiaries are all entities over which the Group has the power to govern the financial and operating policies in order to gain future benefits from their activities generally accompanying a shareholding of more than one half of the voting rights. The existence and effect of potential voting rights that are currently exercisable or convertible are considered when assessing whether the Group controls another entity. Subsidiaries are fully consolidated from the date on which control is transferred to the Group. They are de-consolidated from the date that control ceases.

The purchase method of accounting is used to account for the acquisition of subsidiaries by the Group. The cost of an acquisition is measured as the fair value of the assets given, equity instruments issued and liabilities incurred or assumed at the date of exchange, plus costs directly attributable to the acquisition. Identifiable assets acquired and liabilities and contingent liabilities assumed in a business combination are measured initially at their fair values at the acquisition date, irrespective of the extent of any non-controlling interest. The excess of the cost of acquisition over the fair value of the Group's share of the identifiable net assets acquired is recorded as goodwill. If the cost of acquisition is less than the fair value of the net assets of the subsidiary acquired, the difference is recognised directly in the consolidated income statement.

In a multi-phase acquisition, when determining goodwill or bargain purchase, the consideration is the sum of the total consideration on the date of acquiring control and previous considerations remeasured to fair value on the date of control acquisition.

Inter-company transactions, balances and unrealised gains and losses on transactions between group companies are eliminated.

Accounting policies of subsidiaries have been changed where necessary to ensure consistency with the policies adopted by the Group.

The financial statements of the subsidiaries are prepared for the same accounting period of the Group for the consolidation purpose. If there are differences in end dates, the gap must not exceed 3 months. Adjustments are made to reflect impacts of significant transactions and events occurring between the end dates of the subsidiaries' accounting period and that of the Group's. The length of the reporting period and differences in reporting date must be consistent between periods.

**2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)**

**2.5 Basis of consolidation (continued)**

**Non-controlling transactions and interests**

The Group applies a policy for transactions with non-controlling interests as transactions with external parties to the Group.

Non-controlling interests ("NCI") are measured at their proportionate share of the acquiree's identifiable net assets at date of acquisition.

A divestment of the Group's interest in a subsidiary that does not result in a loss of control is accounted for as a transaction with owners. The difference between the change in the Group's share of net assets of the subsidiary and any consideration paid or received from divestment of the Group's interest in the subsidiary is recorded directly in the undistributed earnings under equity.

In a divestment of the Group's interest in a subsidiary that results in a loss of control, the difference between the Group's share in the net assets of the subsidiary and the net proceeds from divestment is recognised in the consolidated income statement. The retained interest in the entity will be accounted for as either an investment in another entity or investment to be accounted for as equity for since the divestment date.

**Associates**

Associates are investments that the Group has significant influence but not control over and the Group would generally have from 20% to less than 50% of the voting rights of the investee. Investments in associates are accounted for using the equity method of accounting and are initially recognised at cost. The Group's investment in associates includes goodwill identified on acquisition, net of any accumulated impairment loss.

The Group's share of the post-acquisition profits or losses of its joint ventures and those of its associates is recognised in the consolidated income statement. The cumulative post-acquisition movements are adjusted against the carrying amount of the investment. When the Group's share of losses in an associate equals or exceeds its interest in the associate, the Group does not recognise further losses, unless it has incurred obligations or made payments on behalf of the associate.

Accounting policies of associates have been changed where necessary to ensure consistency with the policies adopted by the Group.

Unrealised gains and losses on transactions between the Group and its associates are eliminated to the extent of the Group's interest in the associates in accordance with the current accounting policies.

# CONSTRUCTION CORPORATION NO 1 JOINT STOCK COMPANY

Form B 09a – DN/HN

## 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

### 2.6 Goodwill

Goodwill represents the excess of the cost of an acquisition over the fair value of the Group's share of the net identifiable assets of the acquired subsidiary or associate at the date of acquisition. Goodwill on acquisitions of subsidiaries is recognised as an asset and is amortised on a straight-line basis over its estimated period of benefit but not exceeding a period of 10 years.

Goodwill on acquisitions of investments in associates is included in the carrying amount of the investments at the date of acquisition. The Group does not amortise this goodwill.

On disposal of the investments in subsidiaries or associates, the attributable amount of unamortised goodwill is included in the determination of the profit or loss on the disposal.

Goodwill is carried at cost less accumulated amortisation, and is tested annually for impairment. If there is evidence that the impairment during the year is higher than the annual goodwill charge, the Group records the impairment immediately in the accounting period.

### 2.7 Cash and cash equivalents

Cash and cash equivalents comprise cash on hand, cash at banks, and other short-term investments with an original maturity of three months or less.

### 2.8 Receivables

Receivables represent trade receivables from customers arising from sales of goods and rendering of services or non-trade receivables from others and are stated at cost. Provision for doubtful debts is made for each outstanding amount based on overdue days in payment according to the initial payment commitment (exclusive of the payment rescheduling between parties) or based on the estimated loss that may arise. The difference between the provision of this period and the provision of the previous period is recognised as an increase or decrease of general and administration expenses in the period. Bad debts are written off when identified as uncollectible.

Receivables are classified into short-term and long-term receivables on the consolidated balance sheet based on the remaining period from the consolidated balance sheet date to the maturity date.

**2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)**

**2.9 Inventories**

Inventories are stated at the lower of cost and net realisable value. Cost is determined by the weighted average method and includes all costs of purchase, costs of conversion and other directly-related costs incurred in bringing the inventories to their present location and condition. In the case of manufactured products, cost includes all direct expenditure and production overheads based on normal levels of operating activity. Net realisable value is the estimated selling price in the normal course of business, less the estimated costs of completion and selling expenses.

Construction materials and construction work are stated at the lower of cost and net realizable value. Cost is determined by the weighted average method and includes all costs of purchasing and other costs of acquiring construction materials and of constructing the work in its present location and condition. Net realizable value is the estimated selling price of building materials and construction works in the ordinary course of business, less the estimated costs of completion and transfer expenses.

The Group applies the perpetual system for inventories.

Provision is made, where necessary, for obsolete, slow-moving, and defective inventory items. The difference between the provision of this period and the provision of the previous period is recognised as an increase or decrease of cost of goods sold in the period.

**2.10 Investments**

**(a) Investments held to maturity**

Investments held to maturity are investments which the Group has a positive intention and ability to hold until maturity.

Investments held to maturity include term deposits and bonds held to maturity. Those investments are initially accounted for at cost. Subsequently, the Board of Management reviews all outstanding investments to determine the amount of provision to recognise at the period end.

Provision for diminution in value of investments held to maturity is made when there is evidence that the investment is uncollectible in whole or in part. Changes in the provision balance during the accounting period are recorded as an increase or decrease in financial expenses. A reversal, if any, is made only to the extent the investment is restored to its original cost.

Investments held to maturity are classified into short-term and long-term investments held to maturity on the consolidated balance sheet based on the remaining period from the consolidated balance sheet date to the maturity date.

**2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)**

**2.10 Investments (continued)**

**(b) Investments in associates**

Investments in associates are accounted for using the equity method when preparing the consolidated financial statements (Note 2.5).

**(c) Investments in other entities**

Investments in other entities are investments in equity instruments of other entities without controlling rights or co-controlling rights, or without significant influence over the investee. These investments are accounted for initially at cost. Subsequently, the Board of Management reviews all outstanding investments to determine the amount of provision to recognise at the period end.

Provision for investments in other entities is made when there is a diminution in value of the investments at the period end. Provision for investments in other entities is calculated based on market value if market value can be determined reliably. If market value can not be determined reliably, the provision is calculated based on the loss of investees.

Changes in the provision balance during the accounting period are recorded as an increase or decrease in financial expenses. A reversal, if any, is made only to the extent the investment is restored to its original cost.

**2.11 Lendings**

Lendings are lendings granted for the earning interest under agreements among parties but not for being traded as securities.

Lendings are initially recognised at cost. Subsequently, the Board of Management reviews all outstanding amounts to determine the amount of provision to recognise at the period end. Provision for doubtful lending is made for each lending based on overdue days in payment of principals according to the initial payment commitment (exclusive of the payment rescheduling between parties) or based on the expected loss that may arise. Changes in the provision balance during the accounting period are recorded as an increase or decrease in financial expenses. A reversal, if any, is made only to the extent the investment is restored to its original cost.

Lendings are classified into short-term and long-term lendings on the consolidated balance sheet based on the remaining term of the lendings as at the consolidated balance sheet date.

**2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)**

**2.12 Construction contracts**

A construction contract is a contract specifically negotiated for the construction of an asset or a combination of assets that are closely interrelated or interdependent in terms of design, technology and functions or ultimate purpose of use.

When the outcome of a construction contract can be estimated reliably, and the contractor is paid, contract revenue and contract costs are recognised over the period of the contract as revenue and expenses, respectively for the works performed and certified by customer. The compensation and other revenue are only recognised in revenue when certified by customer.

When the outcome of a construction contract cannot be reliably estimated, contract revenue is recognised to the extent of contract costs incurred where it is probable those costs will be recoverable. Contract costs are only recognised when incurred during the period.

**2.13 Business cooperation contract**

A business cooperation contract ("BCC") is a contract between the Group and other parties to carry out specific business activities without establishing a new legal entity. These activities are controlled by one of the parties. The BCC is based on shares of post-tax profits. The parties in a BCC may agree to share profits after tax.

A BCC in the form of shares of profits after tax is jointly controlled or controlled by one party.

- If a BCC states that each party is entitled to a fixed amount of profit regardless of the performance of the BCC, it is a lease of asset in substance.
- If the BCC states that each party is entitled to profits when the BCC is profitable and is required to bear losses when the BCC is loss making, in substance, the BCC parties share revenue and expenses because each party can jointly control the operation and cash flows of the BCC.

When the Group is not in charge of accounting and tax finalisation, the Group accounts for its proportionate share of revenue and expenses from the BCC.

## 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

### 2.14 Fixed assets

#### *Tangible and intangible fixed assets*

Fixed assets are stated at historical cost less accumulated depreciation or amortisation. Historical cost includes expenditure that is directly attributable to the acquisition of the fixed assets bringing them to suitable conditions for their intended use. Expenditure which is incurred subsequently and has resulted in an increase in the future economic benefits expected to be obtained from the use of fixed assets, can be capitalised as an additional historical cost. Otherwise, such expenditure is charged to the consolidated income statement when incurred.

#### *Depreciation and amortisation*

Fixed assets are depreciated and amortised using the straight-line method so as to write off the cost of the depreciable amount of the fixed assets over their estimated useful lives. Depreciable amount equals to the historical cost of fixed assets recorded in the financial statements minus (-) the estimated disposal value of such assets. The estimated useful lives of each asset class are as follows:

Buildings and structures	3 – 25 years
Machinery and equipment	3 – 12 years
Motor vehicles	6 – 10 years
Office equipment	3 – 10 years
Software	3 years
Others	5 years
Land use rights	50 years

Land use rights comprise of land use rights and prepaid land use rights obtained under land rental contracts which are effective before the effective date of land law 2003 (ie. 1 July 2004) and which land use right certificates are granted, including:

Definite land use rights are stated at costs less accumulated amortisation. Costs of land use rights consists of its purchased prices and any directly attributable costs in obtaining the land use rights. Land use rights are amortised using the straight-line basis over the terms of the land use right certificates.

Indefinite land use rights are stated at costs and not amortised.

Other tangible fixed assets, which is the Dong Nai Bridge project, is depreciated according to the provisions of Circular No. 147/2016/TT-BTC dated 13 October 2016. Depreciation of fixed assets is determined as the exploitation period to return the investor's investment in the project. The depreciation of fixed assets is proportional to the annual revenue in accordance with the exploitation period to collect to return the investor's investment in the project (similar to the method of depreciation according to the quantity and volume of products).

#### *Disposal*

Gains or losses on disposals are determined by comparing net disposal proceeds with the carrying amount of the fixed assets and are recognised as income or expense in the consolidated income statement.

**2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)**

**2.14 Fixed assets (continued)**

*Construction in progress*

Construction in progress represents the cost of assets in the course of installation or construction for production, rental or administrative purposes, or for purposes not yet determined, which are recorded at cost and are comprised of such necessary costs to construct, repair and maintain, upgrade, renew or equip the projects with technologies as construction costs; costs of tools and equipments; compensation and resettlement costs; project management expenditure; construction consulting expenditure; and capitalised borrowing costs for qualifying assets in accordance with the Group's accounting policies. Depreciation of these assets, on the same basis as other fixed assets, commences when the assets are ready for their intended use.

**2.15 Operating lease**

Leases of property, plant and equipment where the lessor has transferred the ownership at the end of the lease period, and transferred substantially the risks and rewards, are classified as finance leases. Finance leases are capitalised at the inception of the lease at the lower of the fair value of leased assets or the present value of the minimum lease payments.

Each lease payment is separate between the liability and finance charges to achieve a constant rate on the outstanding finance lease balance. The corresponding rental obligations, net of finance charge, are included in long-term borrowings.

The interest element of the finance cost is charged to the income statement over the lease term. The property, plant and equipment acquired under finance leasing contracts is depreciated on a straight-line basis over the shorter of the estimated useful life of the assets or the lease term. However, if there is reasonable certainty that the lessee will obtain ownership by the end of the lease term, depreciation is calculated over the estimated useful life of the assets.

Leases where a significant portion of the risks and rewards of ownership are retained by the lessor are classified as operating leases. Payments made under operating leases are charged to the consolidated income statement on a straight-line basis over the term of the lease.

**2.16 Investment properties held for lease**

The historical cost of an investment property held for lease represents the amount of cash or cash equivalents paid or the fair value of another consideration given to acquire the investment property held for lease at the time of its acquisition or completion of construction. Expenditure incurred subsequently which has resulted in an increase in the expected future economic benefits from the use of investment properties held for lease can be capitalised as an additional historical cost. Otherwise, such expenditure is charged to the consolidated income statement when incurred in the period.

# CONSTRUCTION CORPORATION NO 1 JOINT STOCK COMPANY

Form B 09a – DN/HN

## 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

### 2.16 Investment properties held for lease (continued)

#### *Depreciation*

Investment properties held for lease are depreciated on straight-line basis to write off the depreciable amount of the assets over their estimated useful lives. Depreciable amount equals to the historical cost of assets recorded in the financial statements minus (-) the estimated disposal value of such assets. The estimated useful lives of each asset class are as follows:

Land use rights	50 years
Buildings and structures	25 years

#### *Disposals*

Gains or losses on disposals are determined by comparing net disposal proceeds with the carrying amount of investment properties and are recognised as income or expense in the consolidated income statement.

### 2.17 Prepaid expenses

Prepaid expenses include short-term and long-term prepayments on the consolidated balance sheet. Short-term prepaid expenses reflect prepayments for services; or tools that do not meet the recognition criteria for fixed assets for a period not exceeding 12 months or a business cycle from the date of prepayments. Long-term prepaid expenses reflect prepayments for services; or tools that do not meet the recognition criteria for fixed assets for a period exceeding 12 months or more than one business cycle from the date of prepayments. Prepaid expenses are recorded at historical cost and allocated on a straight-line basis over their estimated useful lives.

### 2.18 Payables

Classifications of payables are based on their nature as follows:

- Trade accounts payable are trade payables arising from purchase of goods and services; and
- Other payables including non-trade payables, and not relating to purchase of goods and services.

Payables are classified into short-term and long-term payables on the consolidated balance sheet based on remaining period from the consolidated balance sheet date to the maturity date.

**2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)**

**2.19 Borrowings and finance lease liabilities**

Borrowings and finance lease liabilities include borrowings and finance lease liabilities from banks, and other entities.

Borrowings and finance lease liabilities are classified into short-term and long-term on the consolidated balance sheet based on their remaining period term from the consolidated balance sheet date to the maturity date.

Borrowing costs that are directly attributable to the construction or production of any qualifying assets are capitalised during the period of time that is required to complete and prepare the asset for its intended use. In respect of general-purpose borrowings a portion of which used for the purpose of construction or production of any qualifying assets, the Group determines the amount of borrowing costs eligible for capitalisation by applying a capitalisation rate to the weighted average expenditure on the assets. The capitalisation rate is the weighted average of the interest rates applicable to the Group's borrowings that are outstanding during the year, other than borrowings made specifically for the purpose of obtaining a qualifying asset. Other borrowing costs are recognised in the consolidated income statement when incurred.

**2.20 Accrued expenses**

Accrued expenses include liabilities for goods and services received in the year but not yet paid for, due to pending invoices or insufficient records and documents; other payables to employees; accrued interest expense and project costs in the accounting period. Accrued expenses are recorded as expenses in the reporting period.

**2.21 Provisions**

Provisions are recognised when the Group has a present legal or constructive obligation as a result of past events; it is probable that an outflow of resources will be required to settle the obligation; and the amount has been reliably estimated. Provision is not recognised for future operating losses.

Provisions are measured at the level of the expenditures expected to be required to settle the obligation. If the time value of money is material, provision will be measured at the present value using a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the obligation. The increase in the provision due to passage of time is recognise as a financial expense. Changes in the provision balance during the accounting period are recorded as an increase or decrease in operating expenses.

**2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)**

**2.22 Unearned revenue**

Unearned revenue mainly comprises the amounts that customers have paid in advance for one or many accounting periods for asset leases. The Group records unearned revenue for the future obligations that the Group has to fulfil. Unearned revenue is recognised as revenue in the consolidated income statement during the year to the extent that revenue recognition criteria have been met.

Unearned revenue is classified short-term and long-term on the consolidated balance sheet based on the obligations that the Group will perform within next 12 months or normal business cycle and after next 12 months or after normal business cycle as at consolidated balance sheet date.

**2.23 Capital and reserves**

Owners' capital is recorded according to the actual amounts contributed and is recorded according to the par value of the shares.

Share premium is the difference between the par value and the issue price of shares; the difference between the repurchase price and re-issuing price of treasury shares.

Treasury shares bought before the effective date of the Securities Law (ie. 1 January 2021) are shares issued by the Company and bought back by itself, but these are not cancelled and may be re-issued subsequently in accordance with the Law on Securities. Treasury shares bought after 1 January 2021 will be cancelled and adjusted to reduce equity.

Undistributed earnings record the Group's accumulated results after CIT at the reporting date.

**2.24 Appropriation of profit**

The Group's dividends are recognised as a liability in the Group's consolidated financial statements in the period in which the dividends are approved by the Group's General Meeting of Shareholders and shareholder list, who received the dividends, is according to resolution of Board of Directors.

Net profit after CIT could be distributed to shareholders after approval at the General Meeting of Shareholders, and after appropriation to other funds in accordance with the Group's charter and Vietnamese regulations .

The Group's funds are as below:

**(a) Investment and development fund**

Investment and development fund is appropriated from profit after CIT of the Group and approved by shareholders at the General Meeting of Shareholders. This fund is used for the Group's expansion of its operation or in-depth investments.

**2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)**

**2.24 Appropriation of profit (continued)**

**(b) Bonus and welfare fund**

Bonus and welfare fund is appropriated from profit after CIT and subject to Shareholders' approval at the General Meeting of Shareholders. This fund is presented as a liability on the consolidated balance sheet. This fund is used for purpose of pecuniary rewarding and encouraging, common benefits and improvement of the employees' benefit of the Group.

**2.25 Revenue recognition**

**(a) Revenue from sales of goods**

Revenue from sale of goods is recognised in the consolidated income statement when all five (5) of the following conditions are satisfied:

- The Group has transferred to the buyer the significant risks and rewards of ownership of the goods;
- The Group retains neither continuing managerial involvement to the degree usually associated with ownership nor effective control over the goods sold;
- The amount of revenue can be measured reliably;
- It is probable that the economic benefits associated with the transaction will flow to the Group; and
- The costs incurred or to be incurred in respect of the transaction can be measured reliably.

No revenue is recognised if there are significant uncertainties regarding recovery of the consideration due or the possible return of goods.

Revenue is recognised in accordance with the "substance over form" principle and allocated to each sale obligation. If the Group gives promotional goods to customers associated with their purchases, the Group allocates the total considerations received between goods sold and promotional goods. The cost of promotional goods is recognised as cost of sales in the consolidated income statement.

**(b) Revenue from construction contract**

Revenues from construction contracts are comprised of the revenue initially set out in contracts; increases and/or decreases during the term of the contract; bonuses; and other payments to be received from customers or other parties to compensate for the costs not included in the contractual price; other payments that customers agreed to compensate; and other payments provided that these amounts can change the revenue and can be reliably determined.

## CONSTRUCTION CORPORATION NO 1 JOINT STOCK COMPANY

### Form B 09a – DN/HN

## 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

### 2.25 Revenue recognition (continued)

#### (c) Revenue from rendering of services

Revenue from rendering of services is recognised in the consolidated income statement when the services are rendered, by reference to completion of the specific transaction assessed on the basis of the actual service provided as a proportion of the total services to be provided. Revenue from rendering of services is only recognised when all four (4) of the following conditions are satisfied:

- The amount of revenue can be measured reliably;
- It is probable that the economic benefits associated with the transaction will flow to the Group;
- The percentage of completion of the transaction at the consolidated balance sheet date can be measured reliably; and
- The costs incurred for the transaction and the costs to complete the transaction can be measured reliably.

#### (d) Interest income

Interest income is recognised on the basis of the actual time and interest rates for each period when both (2) of the following conditions are satisfied:

- It is probable that the economic benefits associated with the transaction will flow to the Group; and
- Income can be measured reliably.

#### (e) Income from dividend and profit distributed

Income from dividends is recognised when both (2) of the following conditions are satisfied:

- It is probable that the economic benefits associated with the transaction will flow to the Group; and
- Income can be measured reliably.

Income from dividend and profit distributed is recognised when the Group has established receiving rights from investees.

### 2.26 Sales deductions

Sales deductions include trade discounts, sales returns and allowances. Sales deductions incurred in the same period of the related revenue from sales of products, goods and rendering of services are recorded as a deduction from the revenue of that period.

Sales deductions for sales of products, goods or rendering of services which are sold/rendered in the period but are incurred after the consolidated balance sheet date but before the issuance of the consolidated financial statements are recorded as a deduction from the revenue of the period.

**2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)**

**2.27 Cost of goods sold and services rendered**

Cost of goods sold and services rendered are the cost of finished goods, merchandise, materials sold or services rendered during the period, and recorded on the basis of matching with revenue and on a prudent basis.

**2.28 Financial expenses**

Financial expenses are expenses incurred in the period for financial activities including expenses or losses relating to financial investment activity, expenses of borrowing; provision for diminution in value of investments; losses incurred when selling foreign currencies; losses from foreign exchange differences; and payment discounts.

**2.29 Selling expenses**

Selling expenses represent expenses that are incurred in the process of selling products, goods, and providing services.

**2.30 General and administration expenses**

General and administration expenses represent expenses that are incurred for administrative purposes of the Group.

**2.31 Current and deferred income tax**

Income tax includes all income tax which is based on taxable profits. Income tax expense comprises current income tax expense and deferred income tax expense.

Current income tax is the amount of income tax payable or recoverable in respect of the current period taxable profits at the current period tax rates. Current and deferred income tax are recognised as an income or an expense and included in the profit or loss of the period, except to the extent that the income tax arises from a transaction or event which is recognised, in the same or a different period, directly in equity.

Deferred income tax is provided in full, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the consolidated financial statements. Deferred income tax is not accounted for if it arises from initial recognition of an asset or liability in a transaction other than a business combination that at the time of occurrence affects neither the accounting nor the taxable profit or loss. Deferred income tax is determined at the tax rates that are expected to apply to the accounting period when the asset is realised or the liability is settled, based on tax rates that have been enacted or substantively enacted by the consolidated balance sheet date.

Deferred income tax assets are recognised to the extent that it is probable that future taxable profit will be available against which the temporary differences can be utilised.

**2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)**

**2.32 Related parties**

Enterprises and individuals that directly, or indirectly through one or more intermediaries, control, or are controlled by, or are under common control with the Group, including holding companies, subsidiaries and fellow subsidiaries are related parties of the Group. Associates and individuals owning, directly or indirectly, an interest in the voting power of the Group that gives them significant influence over the Group, key management personnel, including members of the Board of Directors, the Audit Committee, the Board of Management of the Company and close members of the family of these individuals and companies associated with these individuals also constitute related parties.

In considering its relationships with each related party, the Group considers the substance of the relationships not merely the legal form.

**2.33 Segment reporting**

A segment is a component which can be consolidated by the Group engaged in providing products or services (business segment) or providing products or services within a particular economic environment (geographical segment). Each segment is subject to risks and returns that are different from those of other segments. A reportable segment is the Group's business segment.

**2.34 Critical accounting estimates**

The preparation of consolidated financial statements in accordance with Vietnamese Accounting Standards, the Vietnamese Corporate Accounting System and applicable regulations on preparation and presentation of consolidated financial statements requires the Board of Management to make estimates and assumptions that affect the reported amounts of assets, liabilities and disclosures of contingent assets and liabilities at the date of these consolidated financial statements and the reported amounts of revenues and expenses during the accounting period.

Such estimates and assumptions are continually evaluated. They are based on historical experiences and other factors, including expectations of future events that may have a financial impact on the Group that are assessed by the Board of Management to be reasonable under the circumstances.

(i) During the period, the Company purchased shares in the public offering of additional shares to existing shareholders according to Notice No. 59/TB-CDC dated March 12, 2025 of the Board of Directors of Chuong Duong Joint Stock Company, the number of additional purchases was 5,226,687 shares, maintaining the ownership ratio of 23.77%.

According to the Board of Directors Resolution No. 77/NQ-HĐQT dated July 11, 2025, the Board of Directors decided to transfer all capital contributions at Chuong Duong Joint Stock Company. As of the date of this financial report, the Group has completed the transfer.

(ii) According to the Resolution of the Board of Directors No. 17/2025/NQ-HDQT dated 18 March 2025 and the Resolution of the Board of Directors No. 22/2025/NQ-HDQT dated 08 April 2025, the Board of Directors decided to transfer a part of the capital contribution at Saigon Sunflower Company Limited, and reduce the ownership ratio to 49% of the charter capital. The Group has transferred the investment in this subsidiary to an associate. As of the date of this financial report, the Group has completed the transfer.

(iii) During the period, the Group purchased shares in the additional offering of shares to existing shareholders according to Resolution No. 01/NQ-ĐHĐCĐ of the 2025 Annual General Meeting of Shareholders dated June 20, 2025 of CC1 Trading and Service Joint Stock Company, the additional purchase quantity was 4,200,000 shares, still maintaining the ownership ratio of 28.00%.

(iv) During the period, the Company purchased additional shares in the share offering to existing shareholders in accordance with Resolution No. 04/NQ-ĐHĐCĐ.2025 of the General Meeting of Shareholders dated October 2, 2025, of No.1 Viet Hung Construction Joint Stock Company. The additional shares purchased amounted to 4,080,000 shares, maintaining the ownership ratio at 40.80%.

(v) According to Decision 950/QD-TCT dated November 3, 2025, the company changed its name from No. 1 Agricultural Materials and Products Joint Stock Company to Southern Infrastructure and Energy Joint Stock Company, and increased its charter capital, but CC1 did not contribute additional capital corresponding to its ownership ratio and reduced its ownership ratio to 7.83% of the charter capital. The Group transferred its investment in this affiliated company to another investment.

According to Decision No. 1000/QD-TCT dated November 19, 2025, CC1 did not contribute additional capital corresponding to its ownership stake in the capital increase at Southern Infrastructure and Energy Joint Stock Company, reducing its ownership stake to 3.92% of the charter capital.

(vi) According to Decision No. 1118/QD-TCT dated December 24, 2025, the Group decided to transfer a portion of the capital contribution in 3H Building Materials Joint Stock Company, reducing the ownership ratio to 15.67% of the charter capital. The Group has transferred the investment in this associate company to another investment. As of this consolidated financial statement date, the Group has completed the transfer.

(i) According to the Board of Directors Resolution No. 58/NQ-HĐQT dated June 2, 2025, the Board of Directors decided to approve the capital contribution policy to establish CC1 Asset Management and Services Company Limited. As of the date of this financial report, the Group has completed the capital contribution.

According to Decision No. 783.1/QD-TCT dated September 9, 2025 and Decision No. 970/QD-TCT dated November 10, 2025, the Group decided not to contribute additional capital corresponding to its ownership stake in the capital increases of CC1 Asset Management and Services Co., Ltd., and reduced its direct ownership stake to 8.46% of the charter capital. The Group transferred its investment in this associate company to another investment because its direct and indirect ownership stake in this company is 10.26%.

(ii) According to the Resolution of the Board of Directors No. 94/NQ-HĐQT dated 11 September 2025, the Board of Directors decided to transfer a part of the capital contribution at Hai Phong Coastal Road Investment Company Limited, and reduce the ownership ratio to 15% of the charter capital. The Group has transferred the investment in this subsidiary to another investment. As of the date of this consolidated financial report, the Group has completed the transfer.

(iii) According to Board of Directors Resolution No. 09/2025/BB-HĐQT dated February 20, 2025, the Board of Directors decided to transfer all of its capital contribution in Thai Binh - Cau Nghin Investment Joint Stock Company. As of the date of this separate financial statement, the Company has completed the transfer.

(iv) According to Notice No. 2808/2025/TB-I&D dated August 28, 2025, from Krong Pac Investment and Development Joint Stock Company, the company changed its name to Tan Tien Real Estate Investment and Development Joint Stock Company. As of December 31, 2025, the Group transferred its investment in Tan Tien Real Estate Investment and Development Joint Stock Company to another investment, due to the total direct and indirect ownership percentage of the Group in Tan Tien Real Estate Investment and Development Joint Stock Company is 9.29%.

[\*\*] As at 31 Dec 2025, the Group had not determined the fair values of these investments to disclose on the consolidated financial statements because they are not listed on the stock market. The fair values of such investments may be different from their book values.

<b>Total</b>	<b>397,796,248,422</b>					<b>431,278,555,814</b>

As at 31<sup>st</sup> Dec 2025, investment properties held for lease with a carrying value of VND 262,579,750,056 (as at 31 December 2024: VND 340,884,408,933) were pledged as collaterals for borrowings of the Group and third parties.

As at 31<sup>st</sup> Dec 2025, the Group's investment properties held for lease are currently being leased, so the Board of Management has not officially determined the fair value of these properties. Based on the ratio and rental value of investment properties, the Board of Management assesses that the fair value of these properties is greater than the carrying amount at the end of the accounting period.
